**Assessment Wheel Information**

**Blue** = Update every few years and/or when something changes that would impact the documents.

**Green** = Update annually

**Mission**
- Department Mission Statement

**Student Learning Outcomes**
- Student Learning Outcomes by program

**Curriculum Maps**
- One Curriculum Map per program

**Assessment Plan**
- Multi-year plan that shows what is being assessed when

**Evidence of Student Learning**
- **Academic Programs:**
  - Use the template (see attached) one program outcome
  - Group all of the filled out templates for a program into a single document
- **General Education:** Use the template - one for each GE per learning outcome measured
- **Core Competencies:**
  - One template per competency that you measure
  - GE outcome measured (Maria will arrange for you to receive your ETS data already in a template when it comes back).
- For each program, group the templates into a single document

**Use of Evidence of Student Learning**
- A second copy of the template here will cover the needed information
- APC or GESC proposals
- Program Review document
- Annual MOU reports from Program Review

**Meaning, Quality, Integrity (center of the hexagon)**
- DQP roll up of the data. This will be done by Institutional Effectiveness based on your mapping of learning outcomes to the DQP and they will upload it.
- Mapping of learning outcomes to the data – Maria will send out your current connection between learning outcomes and the DQP elements. This is the basis for the DQP roll-up.

A note about Archive area: The files that are on the wheel should represent data since your last program review. Get rid files older than that.
Assessment Data Template

Blue = Update every few years and/or when something changes that would impact the documents.

Green = Update annually

Learning Outcome:

Outcome Measure:

Criteria for Success (how do you judge if the students have met your standards):

Aligned with DQP Learning Areas (circle one or more but not all five):
1. Specialized Knowledge
2. Broad Integrative Knowledge
3. Intellectual Skills/Core Competencies
4. Applied and Collaborative Learning, and
5. Civic and Global Learning

Longitudinal Data:

Conclusions Drawn from Data:

Changes to be Made Based on Data:

Rubric Used
Learning Outcome:
Mathematics Outcome #2: Students will be able to write proofs

Outcome Measure:
MTH242 Signature Assignment (each year)

Criteria for Success:
80% of the students to score a 2.5 or higher (on a scale of 1-4 with 1 being low) in each of the four areas:
- Statement of the problem
- Logic
- Symbolism
- Justification

Aligned with DQP Learning Areas (circle one or more but not all five):
1. Specialized Knowledge
2. Broad Integrative Knowledge
3. Intellectual Skills/Core Competencies
4. Applied and Collaborative Learning, and
5. Civic and Global Learning

Longitudinal Data:

<table>
<thead>
<tr>
<th></th>
<th>2011</th>
<th>2012</th>
<th>2013</th>
<th>2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>Statement of Problem</td>
<td>100%</td>
<td>100%</td>
<td>100%</td>
<td>100%</td>
</tr>
<tr>
<td>Logic</td>
<td>100%</td>
<td>88%</td>
<td>100%</td>
<td>100%</td>
</tr>
<tr>
<td>Symbolism</td>
<td>100%</td>
<td>100%</td>
<td>100%</td>
<td>100%</td>
</tr>
<tr>
<td>Justification</td>
<td>86%</td>
<td>75%</td>
<td>100%</td>
<td>83%</td>
</tr>
</tbody>
</table>

Conclusions Drawn from Data:
The one point of weakness seems to be in the area of the justification of the steps of the proof.

Changes to be Made Based on Data:
Continue to emphasize the fundamental importance of the need to justify each step of the proof in MTH242 and use this rubric to assess some of the early proof assignments in the class so that students have a clear indication that their lack of justification is weak point.
<table>
<thead>
<tr>
<th></th>
<th>Un satisfactory</th>
<th>Low Satisfactory</th>
<th>High Satisfactory</th>
<th>Outstanding</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Statement of the Problem</strong></td>
<td>Cannot determine what is given and what needs to be proved</td>
<td>Misses one part of the hypothesis or the conclusion</td>
<td>Makes one minor error in identifying hypothesis or conclusion</td>
<td>Understands what is given and what is to be proved</td>
</tr>
<tr>
<td><strong>Logic</strong></td>
<td>Proof has major flaws that make it invalid.</td>
<td>Proof misses more than one major element.</td>
<td>Proof has the main flow of the logic correct but misses one major element</td>
<td>Statements flow logically from one another</td>
</tr>
<tr>
<td><strong>Symbolism</strong></td>
<td>There are many errors in the use of symbolic notation</td>
<td>There are more than two errors in symbolic notation</td>
<td>There are two or fewer minor errors in symbolic notation (e.g. missing parentheses)</td>
<td>All symbols are used correctly</td>
</tr>
<tr>
<td><strong>Justification</strong></td>
<td>There are several errors in the justification</td>
<td>There is one major mistake in justification or more than two minor errors.</td>
<td>There are two or fewer minor errors in justification for the steps.</td>
<td>Every logical step has the appropriate reason (theorem, definition, lemma, etc.)</td>
</tr>
</tbody>
</table>
