**Text:** *Principles of Information Systems* (12<sup>th</sup> Edition) by Ralph Stair and George Reynolds.

**Catalog Description:**

This course is designed to introduce students to contemporary information systems and demonstrate how these systems are used throughout organizations. The focus of this course will be on the key components of information systems: people, software, hardware, data, and communication technologies, and how these components can be integrated and managed.

*Co-requisite: CSC143*

**Learning Outcomes:**

*Department Outcomes:*

- Students will be able to apply their technical knowledge to solve problems.
- Students will use information management as a tool to support decision making in business environments.

*Course Outcomes:*

Students will be able to:

- Describe how and why information systems are used today.
- Explain the technology, people, and organizational components of information.
- Describe how businesses are using information systems for competitive advantage
- Explain the major components of an information systems infrastructure, including enterprise systems.

- Understand how various types of information systems provide the information needed to gain business intelligence to support the decision making for the different levels and functions of the organization.
- Evaluate the ethical concerns that information systems raise in society and the impact of information systems on crime, terrorism, and war.

**Course Philosophy:**

Learning the course material requires active participation. Participation means: reading the text before class, asking questions, providing solutions to problems, sharing ideas with classmates and engaging in class activities and discussions.

**Grade:**

Your grade for the course is based on some oral and written requirements that provide the opportunity for students to demonstrate clear understanding and synthesis of the class materials. The grading criteria and scale are shown below:

<u>Grade Criteria</u>		<u>Grade Scale (%)</u>				
Homework Assignments	20%		A	B	C	D
Attendance/Participation	10%	+		87.5-90	77.5-80	67.5-70
Research Inquiry Paper	15%		92.5-100	82.5-87.5	72.5-77.5	62.5-67.5
2 Exams (15% each)	30%	-	90-92.5	80-82.5	70-72.5	60-62.5
A Comprehensive Final Exam	25%					

Note that scores of 59.9% or lower will result in an F.

**Homework (20%):** Homework will be assigned every class meeting. A homework assignment is late if it is not received at the start of class on the due date. No late homework will be accepted unless there is a documented emergency; however, the two lowest homework scores will be dropped. Please be sure that your homework is stapled together and the problems are in order. Homework will be scored on a combination of completeness and correctness. A random selection (the same for all people) of the problems will be graded on any homework assignment.

**Exams (30%):**

There are two in-class exams. If you do not take an exam you will receive a zero for it. Late exams may be taken only by prior arrangement or with a documented emergency. I must participate in the decision for you to miss an exam; this means that you need to phone me before missing an exam.

**Final (25%):**

The final is cumulative and is given on **TUESDAY MAY 2, 7:30 -10:00 P.M.** The final exam date and time is set by the university at the beginning of the semester and may not be changed by the instructor. Only in the case that a student is required to take three exams during the same day of finals week is an instructor authorized to change the exam date and time for that particular student.

**Attendance:**

Attendance is expected at each class session. In the event of an absence you are responsible for the material covered in class and the assignments given that day.

Regular and punctual attendance at all classes in which a student is registered is considered essential to optimum academic achievement. Therefore, regular attendance and participation in each course are minimal requirements to be met. There are no allowed or excused absences except as approved in writing by the Provost for specific students participating in certain university-sanctioned activities. Excused absences still count toward the 10%-20% limits, but allow students to make up work, quizzes, or tests missed as a result of a university-sanctioned activity. Activities of a unique nature, such as labs or other activities identified clearly on the syllabus, cannot be made up except in rare instances when instructors have given advanced, written approval for doing so. Whenever the number of accumulated absences in a class, for any cause, exceeds ten (10) percent of the total number of class meetings, the faculty member should send an e-mail to the student and the Vice Provost for Academic Administration (VPAA) warning of attendance jeopardy. If more than twenty (20) percent of the total number of class meetings is reported as missed, the faculty member or VPAA may initiate the student's de-enrollment from the course without further advanced notice to the student. If the date of de-enrollment is past the last date to withdraw from a class, the student will be assigned a grade of W or WF consistent with university policy in the Grading section of the catalog. There are no refunds for courses where a de-enrollment was processed. For more details see the PLNU catalog:

**Class Enrollment:**

It is the student's responsibility to maintain his/her class schedule. Should the need arise to drop this course (personal emergencies, poor performance, etc.), the student has the responsibility to follow through (provided the drop date meets the stated calendar deadline established by the university), not the instructor. Simply ceasing to attend this course or failing to follow through to arrange for a change of registration (drop/add) may easily result in a grade of F on the official transcript.

**Academic Accommodations:**

While all students are expected to meet the minimum academic standards for completion of their courses as established by the instructors, students with special needs may require academic accommodations. At Point Loma Nazarene University, students requesting academic accommodations must file documentation with the Disability Resource Center (DRC), located in the Bond Academic Center. Once the student files documentation, the Disability Resource Center contacts the student's instructors and provides written recommendations for reasonable and appropriate accommodations to meet the individual needs of the student. This policy assists the university in its commitment to full compliance with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities (ADA) Act of 1990, and ADA Amendments Act of 2008, all of which prohibit discrimination against students with special needs and

guarantees all qualified students equal access to the benefits of PLNU programs and activities. For more details see the PLNU catalog:

[http://catalog.pointloma.edu/content.php?catoid=18&navoid=1278#Academic\\_Accommodations](http://catalog.pointloma.edu/content.php?catoid=18&navoid=1278#Academic_Accommodations)

Students with learning disabilities who may need accommodations should discuss options with the instructor during the first two weeks of class.

### **Academic Honesty:**

The Point Loma Nazarene University community holds the highest standards of honesty and integrity in all aspects of university life. Any violation of the university's commitment is a serious affront to the very nature of Point Loma's mission and purpose. Violations of academic honesty include cheating, plagiarism, falsification, aiding academic dishonesty, and malicious interference. The details of PLNU's meaning of each of these words can be found in the PLNU catalog at:

[http://catalog.pointloma.edu/content.php?catoid=18&navoid=1278#Academic\\_Honesty](http://catalog.pointloma.edu/content.php?catoid=18&navoid=1278#Academic_Honesty)

A student remains responsible for the academic honesty of work submitted in PLNU courses and the consequences of academic dishonesty beyond receipt of the final grade in the class and beyond the awarding of the diploma. Ignorance of these catalog policies will not be considered a valid excuse or defense. Students may not withdraw from a course as a response to a consequence.

A student who is caught cheating on any item of work will receive a zero on that item and may receive an "F" for the semester. See the PLNU Catalog for a further explanation of the PLNU procedures for academic dishonesty

### **Copyright Protected Materials**

Point Loma Nazarene University, as a non-profit educational institution, is entitled by law to use materials protected by the US Copyright Act for classroom education. Any use of those materials outside the class may violate the law.

### **Credit Hour:**

In the interest of providing sufficient time to accomplish the stated course learning outcomes, this class meets the PLNU credit hour policy for a three (3) unit class delivered over 16 weeks. Specific details about how the class meets the credit hour requirements can be provided upon request.

### **E-mail:**

I expect that you regularly use e-mail. I will periodically send you information and updates via e-mail. In the first two weeks of class you must activate your PLNU e-mail account if you are not currently using it.

### **Cell Phones:**

Turn off any cell phone, pager or things that are distracting while you are in class. Also,

do not text or work on other classes while in class (to do so is disrespectful to me and your classmates) and it is not the best use of class time.

**Some Tips About This Class:**

- You will have reading every night. Don't get behind! Reading will take some time, don't expect it to go as quickly as reading a novel. Recognize that you may need to read things more than once to fully understand them.
- Work in groups. You learn a lot if you have to explain your solution to someone else (we will be doing this in class).
- Stay current with your assignments (cramming won't help).
- If you have a question, **ASK**.
